NAS Advisory Cmte

Approved For Release 2000/09/03 : CIA-RDP79-04105A000300020114-9

13 September 1967

MEMORANDUM FOR: Acting Deputy Director for Intelligence

SUBJECT: Participation of [REDACTED] on a
National Academy of Sciences Advisory Committee

25X1A9a

25X1A9a

1. [REDACTED] has been asked to serve on an advisory committee of the National Academy of Sciences - National Research Council.

2. The committee is advisory to the Interior Department's Geological Survey on geographic applications in the field of remote sensing. The principal work of the Committee will be the review of project proposals where the objective is the utilization of the results of various types of remote sensing for geographic area research. Most of the members of the committee are from the academic world and serve as individuals rather than as representatives of their institutions or agencies.

25X1A9a

3. Although [REDACTED] would not represent the Agency on this committee, he is known to most of the members as an employee of CIA.

4. This memorandum serves to record our conversation on this subject on 11 September 1967 and to state the principal work of the advisory committee.
